## EMPLOYMENT EXPERIENCE

---

### PayPal

Bengaluru, India (Remote)

Software Engineer 3

July. 2023 – Present

- As a frontend engineer in PayPal Credit engineering team, I lead the design and development of user experiences for the 'PayPal Working Capital' - a financing product which lends around 1.1 million merchants across 6 countries.
- Ensured timely deliveries of multiple projects in the Credit org by solutionizing complex software requirements into high-level & low-level designs, developing solutions with  $\geq 95\%$  test coverage following accessibility guidelines, performing code & design reviews.
- Integrated Open Banking APIs with 'PayPal Working Capital' allowing merchants to share their banking data for enhanced underwriting & 2x loan amount adding to monthly total  $\sim \$1.8M$  of incremental loan origination.
- Operational Efficiency: Identified & fixed security vulnerabilities, reduced failed customer interactions (FCIs), optimised older CI solution into a fully automated pipeline reducing time to release from 3-4 days to 1 day.

Software Engineer 2

May. 2021 – June. 2023

- Received 'PayPal Spot Award 2022' for playing crucial role in designing and developing the expansion of 'PayPal Working Capital' product in new markets like France & Netherlands boosting monthly loan origination by around \$3.8M with 300+ loans issued.
- Led the design and development of microfrontend fragments for the PayPal's merchant home dashboard used for marketing and servicing needs of PayPal credit products using React, Nodejs and Webpack's module federation architecture responsible for driving one-third of the total traffic and conversion rate of 22% into applicants.
- Took various initiatives like organizing a weekly UI system design review in the team, delivering tech talks and providing mentorship and guidance to new graduate joiners.
- Interviewed candidates in technical rounds for senior engineering roles in multiple hiring drives for PayPal.

### Barclays

Pune, India

Senior Software Developer (BA4)

Feb. 2021 – Apr. 2021

- As part of US Consumer Bank engineering team, I have led the frontend development of a marketplace portal for data scientists and governance teams giving them access to datasets and their models, ownership and controls.
- Promoted to Senior Developer in an extraordinarily short period of time for excellent performance.

Software Developer (BA3)

Oct. 2018 – Jan. 2021

- Took ownership of UI development in the ElectronJS based MS Office plugins that help bankers manage and sync Outlook meetings and contacts with Barclays CRM. Single handedly completed the Angular upgrade (6.x to 10.x).
- Developed UI components like datepicker, data-grid, dialog, sidebar, tooltip, tabs and more for the internal *Angular Component Library* which offers components and services crafted with Barclays design standards.

## FREELANCE EXPERIENCE

---

### Newton School

Bengaluru, India

Coding Mentor

Jan. 2022 – Mar. 2022

- Under the placement preparation programme, I mentored a batch of 12 students in subjects like data structures, algorithms and web development and helped them gain confidence for software engineering job interviews.

## EDUCATION SUMMARY

---

### Savitribai Phule Pune University

Pune, India

Bachelor of Engineering, Computer Science.

June 2014 – May 2018

## KEY ACHIEVEMENTS

---

2 Spot Awards, PayPal

10 PayPal Bravo Recognitions, PayPal

Barclays Global Recognition Award 2020, Barclays

Finalist, PayPal Global Credit Hackathon

Bootcamp Instructor, Four Week Hands on Bootcamp on MERN Stack, VIIT College, 2022. [Youtube Link](#)

Two times semi-finalist (2019 & 2020), Techgig Code Gladiators (An annual competitive coding contest.)
