EMPLOYMENT

Javascript Developer　　　　**Barclays Investment Bank, Pune, India.**　　　　**Oct 2018 - Present**
- Developed more than 10 UI components in the internal Barclays' Angular Component Library. This library has reusable components and services crafted with Barclays UI/UX design standards.
- Optimized the older manual release strategy for this library by implementing automated versioning and deployment into internal Nexus NPM registry using Teamcity's CI/CD pipeline.
- Took ownership of the frontend development in the 'Outlook Meetings Plugin' project built with Openfin and Angular for synchronization of meetings from Outlook to Barclays CRM System.
- Developed a proof of concept of a mobile app for bankers which scans business cards and saves it as a contact using optical character recognition.
- Developed and presented a 'single-codebase-cross-platform' (web, mobile & desktop) application development strategy to the Managing Director by using Angular, Electron and Progressive Web Apps.

Frontend Developer Intern　　　　**Feeljoy Pvt. Ltd., New Delhi, India.**　　　　**Oct 2017 - Jan 2018**
- Developed a chat application built with ReactJS which helps patients get online psychological counseling.

Web Developer Intern　　　　**Vglo Softwares, Pune, India.**　　　　**Apr 2017 - Aug 2017**
- Took ownership of frontend development in the Student Information Management project.
- Successfully delivered login, signup and dashboards screens using Angular.
