EMPLOYMENT

Javascript Developer   **Barclays Investment Bank, Pune, India**   **Oct 2018 - Present**

- Developed more than 10 UI components in the internal Angular component library which has reusable components and services crafted with Barclays design standards. This library is being consumed across the bank in other web development projects.
- Optimized the older manual release strategy for this library by implementing automated versioning and deployment into internal Nexus NPM registry using Teamcity's CI/CD pipeline.
- Took ownership of the UI development in the 'Outlook Meetings Plugin' project built with Openfin and Angular for synchronization of meetings from Outlook to Barclays CRM System.
- Received 'Global Recognition' in the firm for demonstrating a proof of concept to the Managing Director based on 'single-codebase-cross-platform' software development with Angular (for Web), ElectronJS (for desktop) and PWAs (for mobiles).

Frontend Developer Intern   **Feeljoy Pvt. Ltd., New Delhi, India**   **Oct 2017 - Jan 2018**

- Developed a chat application built with ReactJS which helps patients get online psychological counseling.

Web Developer Intern   **Vglo Softwares, Pune, India.**   **Apr 2017 - Aug 2017**

- Took ownership of UI development in the Student Information Management project.
- Successfully delivered login, signup and dashboards screen along with JWT based authentication in Angular.
